

**ESCO-Labor AG**  
Lörracherstrasse 50  
CH – 4125 Riehen  
Switzerland

**ESCO–Labor high temperature processing plant  
having 20 litre useful volume  
Specially equipped with heating, condensing, separating and controlling**

---

**Technical Data:**

- Material in contact with product: 316 L
- Isolation jacket: yes
- Temperature Control: yes
- Container tilting: yes
- Dead space free bottom outlet: yes
- Heating: 16'000 W
- Scraper RPM / Power: 10-100 / 0.55 kW
- Homogeniser RPM / Power: 500-8500 / 1.1 kW
- Temperature probes: 4 PT-100
- Condensor in glass: yes
- Phase separator in glass: yes
- Universal temperature profile controller with 25 freely configurable profiles
